

Quick Cold Relief

Is usually found through the prompt administration of a mildly laxative, dispersive tonic—one that will scatter the inflammation, remove the waste, and help Nature to build up resistance.

Peruna is That Tonic.

Its action is prompt, usually very effective, and its use is without harmful effects. Every household should keep it at hand for this purpose, and every catarrhal sufferer should regularly use this reliable remedy.

The tablet form will be found very convenient. A tablet or two at the very beginning of a cold will frequently prevent its development, and these tablets may be taken regularly with beneficial results.

"INTERNATIONAL SPY" GRAVES SAYS BERNSTORFF WON'T DARE PROSECUTE HIM

Dr. Armgaard Karl Graves, the "international spy" who was arrested in Washington on a charge of having attempted to blackmail Countess von Bernstorff, wife of the German ambassador, by demanding \$20,000 for three letters addressed to her as damaged here from Germany, returned to New York and made several sensational declarations.

First, he asserted, he does not expect ever to have to answer the blackmail charge, for he does not think the German embassy officials will dare have him give his translation of the three code letters on the witness stand. He insisted that there is not a word reflecting upon Countess von Bernstorff in any of the letters.

They do contain information about certain stocks, he asserted, which could be played as a sure winner on the American market because of certain German activities to come about in the near future. Also, he declared, they contain diplomatic secrets of high importance to this country.

Count von Bernstorff, he charged, has made millions of dollars with friends in this country by playing stocks on advance secret information from Germany.

Bernstorff knew twenty-four hours before the U-53 appeared at Newport that she was in American waters, and he "cleaned up" in the market on this advance information," Graves said.

Count von Bernstorff called Graves' assertions "rot."

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy, "fat" tissue, should try eating a little Sargol with their meals for a while and note the results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It is a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women we believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And, best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food it aims to turn the fats, sugars and starches of what you have eaten into rich, ripe, fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. H. M. LeRoux Drug Store, Norwich, Chesbro's Drug Store, Willimantic, and other leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box.

Careless Motorists Warned. Take it as a valuable tip—operators of motor vehicles will do well in Danielson if they make sure that lights on their machines are gleaming when they leave the machines standing at night about town, and also that they cut out the practice of driving past standing trolley cars. There's something doing.

CHRISTMAS THRIFT CLUBS Have Saved Much Money to Be Released Next Month.

A small fortune will be released by banks in Danielson next month to the members of their Christmas savings and thrift clubs. The membership of these organizations grew surprisingly this year. Hundreds of residents here in nearby towns have adopted the club system as an ideal one under which to lay away money every week during the year for Christmas shopping. Most of the money released—thousands of dollars—will go right back into trade channels, booming the business of local merchants during the Yuletide shopping season.

A Snappy Morning. A searching wind out of cloudy skies and a rattle of hail early Wednesday morning came as a warning from November that it is ready to do business in the old way. Temperature readings as low as 25 were reported from various sections of the town, and the first ice of the season formed.

Flash of Knives Among Railroad Gang. There was a near-exhibition of hand-to-hand combat in the big gang of southern workers employed in the local railroad yards when one of the men missed a \$10 bill after he had been given a friendly "chustling" by another member of the gang. Big knives flashed and there were threats of dire proceedings when official interference put an end to the controversy. But the \$10 is still missing.

Will Work for Complete Trunk Line. A petition signed by residents of the towns of Killingly, Brooklyn and Hampton will probably be addressed to the state highway commission in the interest of action toward completing the work of building state trunk line sections between the Rhode Island line at Little Rest and a point east of Danielson and between Brooklyn and Hampton. The aim will be to secure hundreds of signatures to such a petition, and the task will be difficult.

Judge Shumway Rules in Unusual Case. Presiding at a session of the superior court in Hartford, Judge Milton A. Shumway of Danielson did not look for a child manly held as security for a small bond bill. The judge signed a writ of habeas corpus under which Mr. and Mrs. James A. Roberts of Manchester produced in court Anna Louise Parsons, 6-year-old daughter of Mrs. Ida Parsons Molmupy, of New Haven.

Counsel of the Roberts family was given a day to file an answer to the mother's demand for the return of her child, and Judge Shumway continued the hearing until Friday morning.

Before her second marriage Mrs. Molmupy worked for the Roberts family and became attached to them for board for herself and child, while father died in an insane asylum three years after the birth of Anna Louise. It was claimed that Mrs. Roberts provided money to bring the child to Plainfield, N. J., to Manchester, and that she was the only mother the little girl had ever known.

Judge Shumway said: "The board bill has nothing to do with this case."

Odd Fellows Going to Putnam. Next Tuesday evening a delegation of members of Quinebaug lodge of Odd Fellows will be in Putnam to attend a meeting of local Putnam lodge at which the second degree will be conferred upon a class of five candidates. Tuesday evening the initiatory degree was conferred on a class here.

Difficult to Exterminate Gypsy Moth. That it is going to be exceedingly difficult, mayhap impossible, to wholly eradicate the brown-tail and gypsy moths from the northeastern corner of Connecticut is the belief expressed by one in close touch with the work that is being done in this section by the state.

There is every indication, though, that the pests can be kept under control, as is being done at present. The careful scrutiny of the members of the moth hunting crews bring egg masses to light in many and unexpected places.

To the uninstructed in the work of moth hunting it would appear that this section is entirely free of them, but the careful scrutiny of the members of the moth hunting crews bring egg masses to light in many and unexpected places.

At present operations are being confined to the town of Thompson.

Tents lighted by electricity provide living quarters for 500 students of the State College of Texas.

Thanksgiving Donations For Hospital. Thursday of next week has been set as the date for bringing Thanksgiving donations to the Day Kimball hospital to the store of L. E. Smith.

On account of the increased demands due to having a large number of patients and the high cost of food and drugs those in charge are hopeful that the response to the Thanksgiving appeal this year will be even more generous than has been the case in years gone by.

The date of the anniversary will be a day of great religious interest, and many visiting priests, including some from the Dominion of Canada.

Will Work For Prohibition. Temperance organizations in Windham county this week have at their meetings enthusiastically discussed the splendid gains made at the national convention last year, and the state already added to the list of states heretofore listed as "dry."

These gains and "the promise of 1920" are an incentive for such active campaigns a stish section of the state has not seen in years. The promise of this activity is already manifest and a supreme effort will be made in the fall of 1917, at the small town elections in Connecticut to make unprecedented gains for no-license.

With a view to bringing this movement into the list of prohibition states.

The George W. Davis Southgate Woolen Mills, 32 Southgate street, Worcester, Mass., were partially destroyed by fire, November 7, and a large consignment of baled stock and wools was burned. The fire starting from a machine in the card room, spread so quickly that it was with difficulty that employees escaped. The watchman, John Witworth, lost his life.

PRINCESS ANDREW OF GREECE CHOPPING DOWN TREES At Age of Thirty She is Keeping Herself in Perfect Physical Condition.

Villa Mon Repos, Corfu, Greece, Nov. 15.—The Princess Andrew of Greece, who was the English Princess Alice of Battenberg, has spent the past summer chopping down trees to keep herself fit. The Princess Alice is thirty, a cousin of the Queen of Spain. Shortly she will take her children back to Athens for the winter season and give up felling trees to begin her work of encouraging the Greek women to earn their own living by home sewing—the Princess Alice's own particular hobby.

The two eldest little girls, Princess Marguerite and Princess Theodora, eleven and ten respectively, are as brown as their mother and as strong, though they have not been chopping down trees. They have been swimming every day for an hour and a half in the warm translucent water of the Corfu Channel. Prince Andrew's wife herself is a fine strong swimmer now, but it has not been a long time since Sheldon Whitehouse who was then Secretary of the American Legation, pulled her out of the water and saved her life when she had gone down three times.

The villa of Mon Repos, the summer place of Princess Andrew and the Princess Alice, was the favorite country residence of the late King George, who left it to his third son, but unfortunately he failed to leave the means to keep it up. Prince Andrew is a colonel of a cavalry regiment—

while her husband has been in England, also, is not rich, and the pair who for royalties are poor as church mice, have four children, all girls, a sad prospect these days when Europe is full of royal girls and short of royal boys to marry them.

Mon Repos is a big and very beautiful place. Seldom occupied, the property has been let run to seed. The villa is in bad repair and has no modern comforts. The Casino, built by Sir Thomas Waitland in 1816, is almost gone to rack and ruin. But at that, it is far more beautifully situated, the house and garden far lovelier than the Achilleon, the villa of the German Emperor, now used as a French hospital. The Achilleon is on a height, overlooking the whole Corfu Channel and the distant shores of the Egeus; but Mon Repos is at the water's edge, and the deck of the place gives on the still and beautiful lagoon of the Kalliopeus Lake.

The Princess Alice is very pleased and proud over the improvements she has made on Mon Repos this summer.

Wilson Grateful To PEOPLE OF THE WEST Sends Message Promising to Visit That Section When Duties Permit.

Washington, Nov. 15.—President Wilson expressed his support to the people of the west for their support in the election in messages sent tonight in reply to requests that he visit that section before congress opens. He said he would be unable to make the trip at present because of critical duties, but promised to go west later if possible.

The president sent the following telegram to William H. King, successful candidate for the United States senate from Utah: "The invitation to visit the west

tugs hard at my heart because I feel deeply grateful to all the west for the splendid and generous support you have given to me; but I would not be worthy of their generous confidence if I were to leave my duties at a time when duties of the most critical and pressing sort crowd upon me. I am promising myself the pleasure of such a trip if ever I can get free from the toils of exacting duty and in the meantime wish to express my gratitude, appreciation and regret."
